- October 18-24 is AZ Cities & Towns Week! What is your favorite thing about our city? **#AZCityWeek**
- If you've brushed your teeth, taken a shower, washed your hands or enjoyed a glass of water today, you have your municipal water quality specialist to thank. City water specialists ensure that our water meets every state and federal standard, so you know it's safe.
- Cities and towns plan, build and maintain an effective street, road and transportation system that provides citizens and businesses access and mobility: <https://www.youtube.com/watch?v=g6LSQyVY7S0>. We'll get you there, safely and efficiently.
- What is your favorite business in our city? The staff in our economic development department works closely with area businesses to provide solutions. They also ensure their transition to starting, running, expanding and relocating a business within our city is a smooth and successful process.
- It's a dirty job, but somebody's got to do it. One of the many services offered by city and town public works departments is recycling and trash pickup. While it may not be the first service that comes to mind, it is arguably one of the most important.
- Do you have a city park that you love to visit? Whether you're looking for an urban oasis, place to play ball or a playground for the kids to climb on, cities and towns provide parks and facilities that allow you to recreate and enjoy Arizona's beautiful weather.
- When you woke up this morning, you probably took a shower, set out your recycling bin or drove to work on a safely paved street with working stop lights. Maybe this afternoon you'll hit up a town park to enjoy the beautiful weather with our kids or check out a book at the city library. This evening, you can sleep assured knowing that police, fire and safety services would be there if you needed. Cities and towns are always working – from sun up to sun down.

- Can you guess the population of our city? Arizona's cities and towns vary in population from the large city of Phoenix at 1.4 million residents, to the small town of Winkelman, with 353 residents. **#AZCityWeek**
- They say a city never sleeps, and thanks to Arizona's cities and towns, that has never been so true. <http://www.youtube.com/watch?v=hrRpOXXvLJE> **#AZCityWeek**
- Meet our City Manager! Did you know that of Arizona's 91 cities and towns, 86 of them operate under a council/manager form of government?
- Cities and towns ensure safety all hours of the day. Fire Departments provide a host of emergency services, including medical services, response to fires and water rescues, to name a few. Police Departments work with the public to enforce laws, preserve the peace, and provide a safe environment to call home.
- Meet our Planning and Zoning Commission! A city's local planning and zoning department is responsible for directing growth in a way that preserves, protects and sustains our community's history, culture and traditions.
- Meet our city clerk! Municipal clerks perform some of the most important tasks in a city or town. A municipal clerk ensures that citizens can participate in elections, request copies of public documents, learn about the proceedings of their city and town council, understand the history of their community, and feel confident that the day-to-day work of a city or town is done with professionalism and care. **#AZCityWeek**
- When the COVID-19 pandemic hit and stay-at-home orders were implemented across the state, cities and towns continued to provide essential services. Public safety, public works and transportation workers stayed on the frontlines to keep residents safe, healthy and where they need to go. Communication teams provided up-to-date and necessary Information. Recreation and library staff created Innovative virtual programs to keep our community active and engaged. Our city continued to work to provide care for our community. **#AZCityWeek**
