## Legislative Update

Today is day five of the first session of the 55<sup>th</sup> Legislature. This week both chambers held the swearing-in ceremony for newly elected lawmakers on Monday to a restricted audience in the galleries and hosted a viewing of the governor’s annual state of the state address, which was broadcast live on YouTube from his office. This year’s ceremony was vastly different than the traditional pomp and circumstance of previous years, to comply with social distancing measures - limited attendance, a mostly masked audience of lawmakers, and some choosing to participate over Zoom from their capitol office. The governor’s speech was unusually brief, with COVID-19 at the forefront, and highlighting the progress on vaccine distribution, economic recovery, and previewing his legislative agenda for the session. A full transcript of the speech can be accessed at this [link](#).

## PSPRS Cancer Insurance Fund

On Wednesday, the Senate Finance Committee considered SB1043 public safety; cancer insurance; eligibility sponsored by Senator David Livingston (R-Peoria). Since the mid-1990's employers have paid an annual amount into the Cancer Insurance Fund for each of their public safety employees. The fund was established to cover out-of-pocket medical costs, up to \$100,000, if they were diagnosed with cancer. Senator Livingston’s proposal would extend this program to retirees with the program being subsidized by the employers.

The League identified concerns with this proposal because the plan was not established to cover this larger group of employees and would result in employers increasing their annual contributions as well as a more expedited depletion of the fund. The sponsor has committed to stakeholder meetings on the issue. The bill passed out of committee 7-2-1.

# PSPRS Health Benefit Subsidy

Also, on Wednesday, the Senate Finance Committee considered SB1045: defined contribution; health subsidy; disability sponsored by Senator David Livingston. This bill aims to extend the health benefit subsidy offered to public safety employees enrolled in the PSPRS defined benefit plan to public safety employees who are enrolled in the PSPRS defined contribution plan.

During pension reform in 2016, language was included in statute that precluded defined contribution plan participants from receiving the health benefit subsidy. Consequently, this new benefit has not been funded and would result in increased contribution rates by the employer by 0.27% per year. The League signed in opposition to the bill and the sponsor has committed to stakeholder meetings on the issue. The bill passed out of committee 6-2-2.

## Executive Budget

The executive budget includes the following items of interest to cities and towns:
