

January 14, 2013

Statement by Clarkdale Mayor Doug Von Gausig, President of the League of Arizona Cities and Towns on Governor Brewer's State of the State Address:

The League of Arizona Cities and Towns applauds Governor Brewer for her visionary State of the State message today. The 91 cities and towns in Arizona stand ready to work with her and with the members of the state legislature to expand our state's economy and make our communities even more attractive to quality employers and the families they support. We know there are still many challenges ahead as we continue to emerge from the great recession.

We will continue to work with the Governor to simplify the state and local TPT tax code by working to implement many of the recommendations of the TPT Simplification Task Force.

The League looks forward to cooperating with Governor Brewer and the members of the legislature throughout the 2013 session.
